Tub Mounted Specs

Victoriana Faucet on Tub

Product is approved and listed in compliance with the following standards:
ASME A112.18.1-2018/CSA B125.1-18
MA Code Accepted

We recommend and MA Code requires that a thermostatic control valve is used at water source. Should you require different water supply centers, adjusters, item # CAVic are available. Should you require additional length from the deck to the spout, 4" extension pieces item # EXT4 are available.
